

## PEN STYLE GAS LEAK DETECTOR

# MR-103S

### FEATURES

- Portable gas leak detector MR-103S was developed to easily detect the gas leaks in appliances or other equipments (heaters, boilers, gas ranges and etc). It is a very portable and diffusion type detector.
- It has a high quality catalytic bead sensor, automatic zeroing function, visual & audible alarms and simple using switches. It is very portable & subminiature model.

### SPECIFICATIONS

Detectable Gases	LNG, LPG
Sensor type/Detection method	Catalytic bead / Diffusion
Detection indication	Green(POWER), Yellow(1000~2000ppm), Red(3000ppm~)
Alarm Type	Buzzer 80dB at 50cm
Battery	Alkaline AA 1.5V × 2EA
Power voltage	DC 3V, MAX 180mA, 1.2w
Duration of use	MAX 10 hours
Operating temp	-20°C ~ +50°C, 0% ~ 95%RH
Material/Dimension/Weight	ABS/190(L) × 33(Ø) / 100g(including batteries)
Approval	CE, FCC
