

MR-105

PORTABLE GAS LEAK DETECTOR

FEATURES

- Portable gas leak detector MR-105 is easy to use for combustible gases and practical. Its weight is only 200g and developed in intrinsically safety.
- It has a high quality semiconductor sensor, battery check functions, visual & audible alarms and simple using switches. It is very portable & economical model.

SPECIFICATIONS

Detectable Gases	LNG, LPG
Sensor type/Detection method	Semiconductor / Diffusion
Detection indication	Flashing Red LED
Alarm Type	Buzzer 80dB at 50cm
Battery	Alkaline AAA 1.5V x 4EA
Power voltage	DC 6V, MAX 180mA, 1.2w
Duration of use	MAX 12 hours
Operating temp.	-20°C ~ +50°C, 0% ~ 95%RH
Material/Dimension/Weight	ABS/60(W) x 115(L) x 30(H) / 200g(including batteries)
Approval	CE
Intrinsically safety	KTL : Ex ib d II B T4
Accessories	Manual, Leather bag, Alkaline AAA battery 4EA
Options	Battery charger, Rechargeable batteries
