

MR-30

FEATURES

- Gas detector MR-30 is an explosion-proof gas detector for continuous monitoring of combustible gas leakage.
- Field calibration and maintenance are available.
- Maximum distance of wires are 2.5km and it can display the gas concentration continuously

SPECIFICATIONS

Model	MR-20	MR-30
Detectable gases	LNG, LPG, combustible gas	
Sensor/Detection method	Catalytic bead, Hot wire semiconductor/ Diffusion	
Detection range/Accuracy	0-100% LEL / $\pm 3\%$	
Response time	Within 20seconds	
Signal/MAX Distance	DC12V / 2.5km	
Connected Pipe	1/23 , 3/43 PF/NPN	
Operating Temp.	-20 $^{\circ}$ C ~ +50 $^{\circ}$ C, 0% ~ 95%RH	
Material/Dimension/Weight	Aluminum/112(W) \times 100(L) \times 80(H) / 700g	
Explosion proof	Ex d IIB T4	

MR-30
